

**Suggested introductory script for using Infosound audio material
in an audio publication or programme**

You will be hearing some of the latest audio articles from the Infosound Audio Library. This is a frequently-updated selection of features on subjects that relate to living with sight loss.

The free Infosound audio library presents information in various category sections – products, support, mobility, finance, leisure and news and Infosound makes their library available to hear in different ways, including over the phone and on their web site.

To find out more, or to take a listen, you can visit www.infosound.org.uk or phone 03000 111 555 – that's 03000 111 555.
